Re: R13-1814F, MarkWest Energy Appalachia, LLC, Kenova

On April 27, 2015 the WVDEP-DAQ received a Class I administrative update request from MarkWest Energy Appalachia, LLC to correct typographical errors that existed in Permit R13-1814E.

§45-13-4 contains regulatory requirements on obtaining administrative updates to existing permits. Specifically §45-13-4.2.a outlines the requirements for Class I administrative updates. This proposed permitting action qualifies for a Class I administrative update due to the fact that there will be typographical errors corrected. There is no application fee or required legal advertisement for a Class I administrative update. These changes will result in no increase in air emissions.

The following typographical errors where changed:

1. The issued date on page 1 has been updated.
2. The header has the current permit.
3. Page 4, Section 1; emission unit S-6 has been corrected to Caterpillar G3612 LE.
4. Page 4, Section 1; emission unit S-6 has been corrected to 12/31/2013.
