

April 16, 2012

Dear Fifth Grade Teacher;

You are invited to bring your fifth grade class to the 2012 Charleston Water Festival on Friday, September 14, 2012 at the Capitol. We would love to have you and your students participate in this festival. Please see the attached flyer for details and registration information.

The Water Festival is a day of fun, educational activities coordinated by Project WET and the WV Department of Environmental Protection along with other state, federal, and local water resource organizations. During the Festival, students will participate in hands-on, interactive activities to learn about the water around them, its importance in their lives, and how to conserve and protect their water resources.

SPACE IS VERY LIMITED.

Please make plans now to participate in this event.

Please fax or email the attached Water Festival registration form by May 10, 2012 to register your class.

We look forward to your participation in this event.

Sincerely,

Enclosed:
