Notice of Draft 2010 CAIR NO_x Ozone Season Allowance Allocation Compliance Order and Public Comment Period

The West Virginia Department of Environmental Protection, Division of Air Quality (DAQ) proposes to issue a Clean Air Interstate Rule (CAIR) NO_x Ozone Season Allowance Allocation Compliance Order. This Draft Compliance Order establishes the 2010 CAIR NO_x Ozone Season allowance allocation for Unit 002 at the PPG Industries Natrium Plant (WV ID# 051-00002) located in New Martinsville, West Virginia. Unit 002 is subject to the standard requirements and provisions of 45CSR40, *Control of Ozone Season Nitrogen Oxides Emissions*, and the CAIR NO_x Ozone Season program administered by the U.S. Environmental Protection Agency. The CAIR Designated Representative for the PPG Industries Natrium Plant is Mr. J. Thomas Horan; P.O. Box 191, New Martinsville, WV 26155.

One CAIR NO_x Ozone Season allowance authorizes the unit to emit one ton of nitrogen oxides during an ozone season, which is May 1 through September 30. By April 1 of each year, the Director will establish and allocate CAIR NO_x Ozone Season allowances to Unit 002 by Order in accordance with the NO_x allowance allocation provisions of 45CSR§40-43.

In accordance with 45CSR§40-43.4, the Director has determined the 2010 CAIR NO_x Ozone Season allowance allocation for PPG Unit 002 equals 378 tons. This allocation was calculated using the unit's 2009 ozone season heat input of 726,481 mmBTU, multiplied by the boiler's baseline NO_x emission rate of 1.04 lb/mmBTU, divided by 2000 lb/ton and rounded to the nearest whole number of NO_x allowances (in tons).

Beginning February 26, 2010, the draft 2010 CAIR NO_x Ozone Season Allowance Allocation Compliance Order may be viewed between 8:30 a.m. and 4:30 p.m. at the Division of Air Quality's Northern Panhandle Regional Office, 131A Peninsula Street, Wheeling, WV 26003 and at the Division of Air Quality main office, 601 57th SE, Charleston, WV 25304.
