Re: Permit Applicability Determination
Goshorn 1H-4H Well Pad
Marshall County, WV
Determination No. PD15-025
Plant ID No. 051-00214

Dear Mrs. Gearhart:

It has been determined that a permit will be required under 45CSR13 for your “after-the-fact” operation of a well site water separation system at the above referenced facility. This determination is based on information included with your permit determination form (PDF) received on March 9, 2015, which indicates that the increase in emissions will exceed two (2) lbs/hr or five (5) tons/year of total Hazardous Air Pollutants (HAPs); six (6) lbs/hour and ten (10) TPY of any regulated pollutant; or, trigger a substantive requirement of a state air quality regulation.

The appropriate application forms which need to be completed can be obtained from the WVDEP website at <http://www.dep.wv.gov>. Submit the completed forms, \$1,000.00 permit application fee, and any other applicable fees to the above address. If you should have questions concerning which forms are needed, or have trouble downloading, please call the Permitting Secretary at (304) 926-0475. Please address this matter as soon as possible to ensure expediency of the permit review process.

Should you have any questions, please contact the undersigned engineer at (304) 926-0499 ext. 1211.

Sincerely,

William T. Rothwell II, P.E.
Engineer
