MEMORANDUM

To: Beverly McKeone
From: David Keatley
Date: March 26, 2015
Subject: G30-D193A

The WV DAQ received this application on March 25, 2015 and the application was deemed complete on March 25, 2015.

Chesapeake currently does not have evidence to show that engine ENG-1 was installed before July 1, 2010 and is therefore considered subject to 40CFR60 subpart JJJJ [§40CFR60.4236(a)] and has been marked as such on page 2 and page 3 of the registration. The name of the facility has been corrected on page 1 of the application. Emission Units TK-1 and TL-1 were inadvertently included in the Emission Units Table on Page 3 and have been removed.

This proposed permitting action qualifies for a Class I administrative update due to the fact that there will be typographical errors corrected. There is no application fee or required legal advertisement for a Class I administrative update. These changes will result in no increase in air emissions.
