Dear Mr. Gutta,

It has been determined that a construction permit will be required under 45CSR13 for your proposed construction of a water treatment facility. This determination is based on information included with your permit determination form dated March 22, 2016, which indicates that the increase in emissions will exceed 6 lb/hr and 10 ton/year of any regulated pollutant and 144 lb/day of volatile organic compounds.

The appropriate application forms which need to be completed can be obtained from the WVDEP website at www.dep.wv.gov/daq/. Submit the completed forms, appropriate permit application fee, and any other applicable fees to the above address. If you should have any questions concerning which forms are required or have trouble downloading them, call the Permitting Secretary at (304) 926-0499 ext. 1250. Please address this matter as soon as possible to ensure expediency of the permit review process.
