

NOTICE OF TRUSTEE'S SALE

NOTICE OF TRUSTEE'S SALE and Notice of the Beneficiary/Service's election to sell property is hereby given pursuant to and by virtue of the authority vested in the Trustee by that certain Deed of Trust dated November 29, 2002, executed by Zachary C. Parker to Jenny N. Phillips, Trustee, of record in the Office of the Clerk of the County Commission of Jackson County, West Virginia, in Book 413, at Page 452. Hereford & Riccardi, PLLC-Trustee, as Trustee by SUBSTITUTION OF TRUSTEE dated April 30, 2015, of record in the Clerk's Office in Book 627, at Page 232. The borrower defaulted under the Note and Deed of Trust and the Trustee has been instructed to foreclose under the Deed of Trust. Accordingly, the Trustee will sell the following described property to the highest bidder at the Courthouse of Jackson County in Ripley, West Virginia, on:

THURSDAY, JULY 23, 2015, AT 9:00 O'CLOCK A.M.

All that certain lot or parcel of real estate together with the improvements thereon and all appurtenances thereto belonging, situate in Union District, Jackson County, West Virginia, and more particularly described as follows:

BEING Lot No. 100 of Section K of the Millwood Housing and Commercial Development, as more particularly shown on a map or plat thereof made by Wallace J. Board, on August 17, 1978, of record in the Office of the Clerk of the County Commission of Jackson County, West Virginia, in Deed Book 237, at page 552.

The real estate herein conveyed is the same real estate conveyed unto Zachary C. Parker by Christina K. Blume, formerly Christina K. Blume, and Donald Blume, her husband, and Thomas R. Brown, Jr. and Brenda Brown, his wife, by deed dated November 23, 2002, of record in the Deed Book 364, page 950.

This conveyance is made subject to all, gas, coal and other mineral reservations and other mineral interests in the chain of title and to all valid existing rights of way and easements appearing of record.

This conveyance is made subject to those certain restrictive and protective covenants of the Millwood Housing and Commercial Development Subdivision of record in the aforesaid Clerk's office in Deed Book 238, page 423.

This conveyance is further made subject to those certain restrictive and protective covenants recorded in the aforesaid Clerk's office on August 14, 1978, in Deed Book 241, page 394.

TERMS OF SALE:

1) The property will be conveyed in an "AS IS" physical condition by Deed containing no warranty, express or implied, subject to the Internal Revenue Service right of redemption, all property taxes, prior Deeds, liens, reservations, encumbrances, restrictions, rights-of-way, easements, covenants, conveyances and conditions of record in the Clerk's office or affecting the subject property.

2) The Purchaser shall be responsible for the payment of the transfer taxes imposed by the West Virginia Code § 11-22-2.

3) Real estate taxes due and payable have been paid. All real estate taxes hereafter will be the responsibility of the purchaser.

4) The Beneficiary and/or the Servicer of the Deed of Trust and Note reserves the right to submit a bid for the property at sale.

5) The Trustee reserves the right to continue sale of the subject property from time to time by written or oral proclamation, which continues until the sale is consummated by the Trustee.

6) The Trustee shall be under no duty to cause any existing tenant or person occupying the property to vacate the property, and any personal property and/or belongings remaining at the property after the purchaser shall be deemed to constitute ABANDONED PROPERTY AND WILL BE DISPOSED OF ACCORDINGLY.

purchase price payable to the Trustee at sale by cashier's check, cash or the equivalent. There will be no refund granted of any amount if the third party purchaser elects not to purchase the property for any reason. Minimum acceptable bid will be \$32,500.00.

Given under my hand this 8th day of July, 2015.

HEREFORD & RICCARDI, PLLC-TRUSTEE

By: Philip B. Hanford, Member 405 Capitol Street, Suite 306 Charleston, West Virginia 25301 Phone: (304) 346-1800 7/14/21

NOTICE OF SUCCESSOR TRUSTEE'S SALE

Notice is hereby given, by virtue of the authority vested in the undersigned Successor Trustee, James W. Lane, Jr., and Bradford P. Bury, by their certain Deed of Trust made by Jennifer W. Fox and Robert T. Fox, dated April 27, 2007 and recorded June 11, 2007 in the office of the Clerk of the County Commission of Jackson County, West Virginia in Trust Deed Book 508 at page 80, the said Successor Trustee acting by virtue of that certain Appointment of Successor Trustee dated May 20, 2015 and recorded July 6, 2015 in the aforesaid Clerk's office in Lien Book 825, at page 780, and default having been made in the payment of the Note secured by the aforesaid Deed of Trust, and having been requested in writing by the owner and holder of the Note, will offer for sale, at public auction, to the highest bidder at the front door of the Courthouse of Jackson County, Ripley, West Virginia, on Friday, August 7, 2015 at 11 a.m. of that certain lot, tract or parcel of real estate, situate, lay and being in Town of Ripley, Jackson County, West Virginia, more particularly bounded and described as follows:

The Lot located at the northeast intersection of Court Street and Main Street, City of Ripley, known as "Carson Corner" and also generally shown in Ripley Town on Tax Map 13, Parcel 98.

This is the same real estate conveyed unto The First National Bank of Ripley, by deed dated May 1, 1916, of record in the office of the Clerk of the County Commission of Jackson County, West Virginia, in Deed Book 91 at Page 472.

As to all of the aforesaid real estate, it is the same real estate as conveyed unto Robert T. Fox and Jennifer W. Fox, his wife, by Pine Hill Memorial Association, a West Virginia non-profit corporation, by deed dated October 6, 2003, of record in the aforesaid Clerk's office in Deed Book 370, page 824.

As to all of the aforesaid real estate, it is the same real estate as conveyed unto Robert T. Fox and Jennifer W. Fox, his wife, by Pine Hill Memorial Association, a West Virginia non-profit corporation, by deed dated October 6, 2003, of record in the aforesaid Clerk's office in Deed Book 370, page 824.

TERMS OF SALE:

The Premises will be sold "AS IS, WHERE IS," in its present condition and with all its defects, if any. The Premises will be conveyed by deed with no covenants of warranty of title. The Premises shall be sold subject to all liens not discharged by the sale, including, without limitation, liens for real estate taxes, delinquent, senior liens with priority to the Deed of Trust pursuant to which this sale is being conducted.

The Premises will be sold subject to all liens, restrictions and easements, rights of way and encumbrances which may be a matter of record in the aforesaid Clerk's office or visible upon the ground. The Premises will be sold for cash in hand on the date of sale to the highest bidder. The purchaser at the sale shall be responsible for paying the recording costs and also the tax on the privilege of transferring real property (the cost of the tax stamps to be affixed to the deed). The Successor Trustee and Lender Bank, Inc. shall not be responsible for the removal of any person or personal property from the Premises.

Pursuant to the Deed of Trust, the Successor Trustee may postpone the sale by public auction. The Successor Trustee and Lender Bank, Inc. shall not be responsible for the removal of any person or personal property from the Premises. Pursuant to the Deed of Trust, the Successor Trustee may postpone the sale by public auction. The Successor Trustee and Lender Bank, Inc. shall not be responsible for the removal of any person or personal property from the Premises. Pursuant to the Deed of Trust, the Successor Trustee may postpone the sale by public auction. The Successor Trustee and Lender Bank, Inc. shall not be responsible for the removal of any person or personal property from the Premises.

of beginning. This is the same real estate conveyed unto The A.M. Carson Store Company by H. F. Ploet and Flora L. Ploet, his wife, by deed dated May 18, 1916, of record in the office of the Clerk of the County Commission of Jackson County, West Virginia, in Deed Book 91 at Page 114.

Third conveyance: BEGINNING at a corner to the Valley Bank Building on public street; thence east with Valley Bank line to Carson Store Co. Lot; thence south with Carson Store Co. line to Carson Store Co. lot; thence west with Carson Store Co. line to the street; thence with the street to the beginning.

This is the same real estate conveyed unto A. M. Carson Store Co. by H. F. Ploet and Flora L. Ploet, his wife, by deed dated March 28, 1915, of record in the office of the Clerk of the County Commission of Jackson County, West Virginia, in Deed Book 91 at Page 151.

This deed further conveyed the following: Also, the said H. F. Ploet and Flora L. Ploet, his wife, hereby grant and convey to A. M. Carson Store Co., their heirs and assigns, the full right and privilege of connecting and joining the South wall with the Valley Bank Building, now used and occupied by said Bank, to the extent and so far as may be necessary for said Carson Store Co., to use the said south wall.

Fourth Conveyance: BEGINNING at a station, at the North East corner of a brick store building lately built by said A. M. Carson Store Co.; thence North 21 feet and 8 inches to a stake in a line between the lot owned by the Bank of Ripley, Ripley, W. Va. and the First National Bank of Ripley; thence East to the extreme East end of said lot, a distance of one and one-half feet; thence south to stake at the South East corner of lot owned by the said First National Bank of Ripley and in a line of said A. M. Carson Store Co.; thence West with said line of A. M. Carson Store Co. to the place of beginning, being the East end of the lot in said town, named by said First National Bank of Ripley, and on which its bank building stands.

The purpose of the DAQ's permitting process is to make a preliminary determination if the proposed modification will meet all State and Federal air quality requirements. The purpose of the DAQ's permitting process is to accept public comments on air quality issues relevant to the determination. Only written comments received at the address noted below within the specified time frame, or comments presented orally at a scheduled public meeting, will be considered prior to final action on the permit. All such comments will become part of the public record.

AIR QUALITY PERMIT NOTICE

Notice of Intent to Approve On February 13, 2015, Armstrong World Industries, Inc. applied to the WV Department of Environmental Protection, Division of Air Quality (DAQ) for a permit to modify a mineral wool manufacturing facility located in the Jackson County Maritime and Industrial Center, Millwood, Jackson County, WV at latitude 38.909° and longitude 81.617°. A preliminary evaluation has determined that all State and Federal air quality requirements will be met by the proposed facility. The DAQ is providing notice to the public of its preliminary determination to issue the permit as R13-28948.

The following change in potential emissions will be authorized by this permit action: Particulate Matter less than 10 microns, +0.75 tons per year (TPY); Particulate Matter, <0.45 TPY; Sulfur Dioxide, <0.03 TPY; Carbon Monoxide, <200.88 TPY; Volatile Organic Compounds, <0.91 TPY; Hazardous Air Pollutants, <0.06 TPY. Written comments or requests for a public meeting must be received by the DAQ before 5:00 p.m. on Thursday, August 20, 2015. A public meeting may be held if the Director of the DAQ determines that significant public involvement has been expressed in writing, or when the Director deems it appropriate.

Notice of Request for Proposal (RFP)

WorkForce West Virginia, a division of the Department of Commerce, announces the availability of U.S. Department of Labor National Dislocated Worker Grant Funds for 2015 Severe Storm/Flooding cleanup 2015 Severe Storms and Flooding assistance (29) counties, as indicated in FEMA Declaration 4210-DR, FEMA Declaration 4210-DR, and FEMA Declaration 4220-DR. West Virginia counties affected are as follows: Barbour, Boone, Braxton, Cabell, Doddridge, Gilmer, Harrison, Jackson, Kanawha, Lincoln, Logan, Marshall, McDowell, Mingo, Monongalia, Putnam, Raleigh, Ritchie, Roane, Summers, Tyler, Upshur, Wayne, Westmar, Wetzel, Wood, and Wyoming counties. Complete details are available online at www.workforcewv.gov under the public Notices Tab, entitled NDWG Funding. A public meeting to discuss the Request for Proposal (RFP) process will be held August 5, 2015 from 10:00 a.m. to 4:00 p.m. at WorkForce West Virginia Career Center 1321 Plaza East Charleston, WV. Attendance is required at this bidder's conference in order to submit a proposal. If for any reason you cannot attend in person, you may need a local representative who cannot be representing any other agency, on your behalf.

Any questions may be referred to Amber Jackson, Employment Services Division, at (304) 558-8414 or Amber.D.Jackson2@wv.gov. REQUEST FOR PAVING PROPOSALS

Attention Paving Contractors: The Jackson County Solid Waste Authority (JCSWA) is seeking sealed bids for paving of two areas totaling approximately five thousand two hundred (5,200) square feet of driveway and parking area at its recycling center on WV State Route 82 at Cottageville, WV. The areas to be paved are currently covered with crushed stone or gravel, and have not previously paved. Paved areas must be sloped such as to allow for adequate surface water without ponding of water.

Pre-paving grading and compaction is required. Quality control testing is the responsibility of the contractor. The paving is to be placed over a suitable stone base. Paving is to be completed during the 2015 paving season. The paving materials used must meet the following minimum specifications:

For aggregate: three and one-half (3 1/2) inches of compacted Base Course and one and one-half (1 1/2) inches of compacted Working Course. Aggregate in the asphalt mix should consist of materials that have performed satisfactorily in previous installations. Coarse aggregates are to comply with section 602 of applicable standards. Fine aggregates are to comply with ASTM D 1073 or equivalent standards. For concrete: six (6) inches in depth, reinforced with steel fiber. Transit Mixed Concrete is furnished from an approved batcher. Expansion joints are required at intervals consistent with industry standards.

A site visit is strongly recommended prior to submitting bids for this paving. To arrange a site visit contact: Frank Young, Recycling Manager, by e-mail at fyoung@mountain.net or by telephone at (304) 532-2433. JCSWA reserves the right to accept or reject any and all bids, in full or in part, to waive any formalities in bidding, and to negotiate alternate specifications and costs pursuant to this Request for Bid.

JCSWA does not discriminate based on race, religion, national origin, or gender. JCSWA is a Political Subdivision of the State of West Virginia, and is thereby eligible for government procurement discounts including West Virginia State Bid Pricing, and is exempt from state of West Virginia sales taxes.

Sealed bids must be received by 4:00 PM August 7, 2015 to: Attn: Mary Estep, Jackson County SWA, P.O. Box 920, Ripley WV 26227, or by FAX number: (304) 572-7834. For further information contact: Frank Young, Recycling Manager, by e-mail at fyoung@mountain.net or by telephone at (304) 532-2433.

AIR QUALITY PERMIT NOTICE

Notice of Intent to Approve

On February 13, 2015, Armstrong World Industries, Inc. applied to the WV Department of Environmental Protection, Division of Air Quality (DAQ) for a permit to modify a mineral wool manufacturing facility located in the Jackson County Maritime and Industrial Center, Millwood, Jackson County, WV at latitude 38.9089 and longitude -81.8377. A preliminary evaluation has determined that all State and Federal air quality requirements will be met by the proposed facility. The DAQ is providing notice to the public of its preliminary determination to issue the permit as R13-2864B.

The following change in potential emissions will be authorized by this permit action: Particulate Matter less than 10 microns, -0.75 tons per year (TPY); Particulate Matter, -0.45 TPY; Sulfur Dioxide, -0.03 TPY; Oxides of Nitrogen, -26.68 TPY; Carbon Monoxide, +200.99 TPY; Volatile Organic Compounds, -0.91 TPY; Hazardous Air Pollutants, +0.06 TPY.

Written comments or requests for a public meeting must be received by the DAQ before 5:00 p.m. on Thursday, August 20, 2015. A public meeting may be held if the Director of the DAQ determines that significant public interest has been expressed, in writing, or when the Director deems it appropriate.

The purpose of the DAQ's permitting process is to make a preliminary determination if the proposed modification will meet all State and Federal air quality requirements. The purpose of the public review process is to accept public comments on air quality issues relevant to this determination. Only written comments received at the address noted below within the specified time frame, or comments presented orally at a scheduled public meeting, will be considered prior to final action on the permit. All such comments will become part of the public record.

RE: Application Status: Complete
Armstrong World Industries, Inc.
Millwood Plant
Permit Application R13-2864B
Plant ID No. 035-00049

Dear Mr. McVay:

Your application for a modification permit for a slag wool plant was received by this Division on February 13, 2015 and assigned to the writer for review. Upon initial review of said application, it was determined that the application was incomplete as submitted. However, with the submittal of additional information on April 7, 2015 the application has now been deemed to be complete and, therefore, the statutory review period commenced on April 30, 2015.

This determination of completeness shall not relieve the permit applicant of the requirement to subsequently submit, in a timely manner, any additional or corrected information deemed necessary for a final permit determination.

Should you have any questions, please contact me at (304) 926-0499 ext. 1218.

Sincerely,

Steven R. Pursley, PE
Engineer

CONSUMERS GAS UTILITY COMPANY PUBLIC AWARENESS NOTIFICATION

Is there an underground pipeline on my property?

Indications that there may be a natural gas pipeline on your property or in the general vicinity include line markers, roadway casing vents, test stations and meters. Line markers are located where pipelines intersect streets, railroad, bodies of water and high traffic areas. In addition these markers will indicate what company owns the pipeline, and an emergency phone number. Roadway casing vents are usually round piping with curved tops. They are located where pipelines cross roadways and allow gas that may be leaking beneath the roadway to vent into the atmosphere and be detected by our personnel during regular inspections. Test stations are usually found in fields and along roadways. These are used to test the pipelines at regular intervals. Gas meters on your property or in the general vicinity would indicate some type of pipeline is in the area.

What precautions should I take regarding a buried pipeline?

If you have a pipeline located on your property, it must be kept free from obstructions, including structures, for safety reasons. More importantly, do not dig on or near the pipeline, without first calling WV 811, (Miss Utility only). Natural Gas Pipelines are the safest way to transport energy. However, certain precautions need to be followed. Natural gas is non-toxic but a gas leak in a non-vented area could deplete the oxygen in the air. In the right concentration natural gas is combustible, it can burn or even explode. In addition, carbon monoxide poisoning is possible when natural

gas is improperly burned or not properly vented. Because natural gas is practically invisible, extra caution is required.

Should I call the company before digging on my property?

Unfortunately, pipeline markers, roadway casing vents, test stations, and meters will not tell you the exact location, depth or number of pipelines. They merely warn you that there are pipelines in the vicinity. Never assume that there are no pipelines in the area where you plan to dig, even if you don't see a line marker. Always call the One-Call service listed below before you dig:

WV 811 (Miss Utility of West Virginia)
DIAL 811-OR-1-800-245-4848

How do I know if the pipeline is leaking?

Common signs of a gas leak include:

1. A gas odor (which can best be described as the smell of rotten eggs).
 2. A blowing or hissing sound.
 3. Water bubbling or being blown into the air at a pond, creek, or river.
 4. Dirt being blown or thrown into the air.
 5. Fire coming from the ground or burning above the ground.
 6. Unusual brown or dead patches of vegetation on or near a pipeline location.
 7. A dry spot in a moist field.
- What should I do if I suspect a gas leak in my home?
1. Leave the building or site immediately and evacuate the entire area.
 2. Once offsite Call 811
 3. Do not operate household equipment or appliances
 4. Do not use anything that could cause a spark, including:
 - Telephone
 - Flashlights
 - Electric switches
 - Drills
 - Automobiles
 5. Don't try to put out any natural gas fires
 6. Don't try to shut off any pipeline valves
 7. Once off the site, call CONSUMERS GAS UTILITY COMPANY

RE: Application Status: Incomplete
Armstrong World Industries, Inc.
Millwood Plant
Permit Application No. R13-2864B
Plant ID No. 035-00049

Dear Mr. McVay:

Your application for a modification permit for a slag wool plant was received by this Division on February 13, 2015 and assigned to the writer for review. Upon initial review of said application, it has been determined that the application as submitted is incomplete based on the following items:

1. Per the February 23, 2015 email to you from Jennifer Rice of this office, the original affidavit of publication for the required Class I legal advertisement has not been received.

Please address the above deficiencies in writing within fifteen (15) days of the receipt of this letter. Application review will not commence until the application has been deemed to be technically complete. Failure to respond to this request in a timely manner may result in the denial of the application. Should you have any questions, please contact me at (304) 926-0499 ext.1218.

Sincerely,

Steven R. Pursley, PE
Engineer

**RE: Application Status
Armstrong World Industries, Inc.
Millwood Facility
Plant ID No. 035-00049
Application No. R13-2864B**

Mr. McVay,

Your application for a modification permit for the Millwood facility was received by this Division on February 13, 2015, and was assigned to Steve Pursley. The following item(s) were not included in the initial application submittal:

Original affidavit for Class I legal advertisement not submitted.

This item is necessary for the assigned permit writer to continue the 30-day completeness review.

Within 30 days, you should receive a letter from Steve Pursley stating the status of the permit application and, if complete, given an estimated time frame for the agency's final action on the permit.

Any determination of completeness shall not relieve the permit applicant of the requirement to subsequently submit, in a timely manner, any additional or corrected information deemed necessary for a final permit decision.

Should you have any questions, please contact the assigned engineer, Steve Pursley, at 304-926-0499, extension 1218.

Re: Rule 13 Minor Modification and Title V Permit Revision Application to Revise Carbon Monoxide Emission Limits, Dry Lime Scrubber Operating Requirements and Monitoring Requirements for the Electric Arc Furnace at Armstrong World Industries, Inc. Millwood, WV Slag Wool Production Plant Facility ID No. 035-00049 Permit No. R13-2864A. *B* Title V Operating Permit No. R30-03500049-2014

Dear Ms. McKeone:

Armstrong World Industries, Inc. (Armstrong) operates a slag wool manufacturing facility located in Millwood, Jackson County, West Virginia that has been issued Permit R13-2864A. Armstrong is submitting the enclosed Rule 13 permit application to revise the carbon monoxide (CO) emission limits for the electric arc furnace (EAF) source at the Millwood facility. The application also requests revisions to several recordkeeping and monitoring requirements based on the proposed continued operation of continuous emissions monitoring systems (CEMS) for CO and for sulfur dioxide (SO₂) at the EAF exhaust. This application is being submitted within 60 days of the effective date of Consent Order No. CO-R13-E-2014-31 that was signed on December 15, 2014, in accordance with item 1 of the Order for Compliance.

Background

The Armstrong Millwood plant conducted initial performance testing to determine emissions of CO, SO₂, NO_x, VOCs, PM, PM₁₀ and manganese from the EAF in January 2013. Emissions of all pollutants with the exception of CO were well below the permit limits for the EAF (Emission Unit ID 1S). The CO emissions measured during the test averaged 73.52 lb/hr. The CO permit limits for the EAF are 5 lb/hr and 21.9 tons/year. Armstrong subsequently proposed the installation of a CO CEMS system to measure CO emissions from the EAF continuously to better determine the CO emissions variability and to propose revised CO emissions limits for the source.

The Millwood plant operates a dry lime scrubber to control SO₂ emissions from the EAF. Section 4.1.3 of Permit R13-2864A required Armstrong to operate at a prescribed lime injection rate until an alternative rate could be established during the initial performance test. During the January 2013 performance test, SO₂ emissions were measured prior to the lime scrubber (i.e., at

February 13, 2015
Page 2

the EAF exhaust prior to the scrubber and baghouse) and measured to be an average of 1.52 lb/hr, or less than three percent of the permit limit of 55.94 lb/hr for the EAF. Because SO₂ emissions were measured well below the allowable limit without the use of the lime scrubber, Armstrong proposed the installation of an SO₂ CEMS system to measure SO₂ emissions from the EAF continuously in order to support a request revise the permit to allow operation of the EAF without using the lime scrubber.

In August 2013, Consent Order CO-R13-E-2013-14 was issued to Armstrong to allow the installation of the CO and SO₂ CEMS to collect emissions data prior to submittal of a permit revision application to revise the CO permit limits and the SO₂ control requirements. Armstrong installed the CEMS and conducted RATA testing to certify the systems on October 2, 2013. Emissions data collected over the October 2013 – January 2014 period showed CO emissions averaged about 21 lb/hr with a maximum of about 72 lb/hr (24-hr average). The SO₂ data collected during this time showed SO₂ emissions averaged less than 10% of the hourly permit limit of 55.94 lb/hr (monthly averages ranged from 4.3 to 6.3 lb/hr).

Armstrong continued to operate the CO and SO₂ CEMS for a 12-month period from October 2013 through September 2014. Based on the emissions data, Armstrong proposed the continued operation of the CEMS and revising the CO permit limits to new limits on a 24-hour and 30-day average basis (letter dated February 26, 2014 to WV DAQ's John Benedict).

In December 2014, Consent Order CO-R13-2014-31 was issued to Armstrong that included an interim CO emission limits for the EAF of 100 lb/hr (24-hour average) and 55 lb/hr (30-day average) and that required the continued operation of the CO CEMS (item 3 of the Order for Compliance). This Rule 13 permit application is being submitted to request modification of the current CO emissions limits to these interim limits. In addition, Armstrong is requesting that the EAF annual CO emission limit of 21.9 tons/year be revised to 241 tons/year which corresponds to the requested 30-day average limit of 55 lb/hr. To ensure that facility-wide CO emissions remain below 250 tons/year, Armstrong is also requesting that the annual emission limits for the diesel back-up emergency generator (EU ID 7S) be reduced to reflect a maximum of 500 hours/year of operation.

Armstrong proposes to continue to operate the CO and the SO₂ CEMS to demonstrate compliance with the proposed CO limits and the existing SO₂ limits for the EAF. Based on the low SO₂ emission rates measured at the EAF, Armstrong is proposing that operation of the dry lime scrubber and lime injection rates (if any) be contingent on SO₂ rates measured by the SO₂ CEMS. Armstrong is requesting that several permit limits requiring sulfur content analyses of raw materials and products be deleted as unnecessary due to the use of the SO₂ CEMS to measure SO₂ emissions.

Requested Permit Revisions

The enclosed permit application requests revisions to Permit R13-2864A and to Title V Operating Permit No. 035-00049-2014. A "marked up" version of the Title V permit identifying

the requested revisions is provided in Attachment S-2. A summary of the requested revisions is as follows:

1. Armstrong requests that the CO limits for the EAF (Emission Unit ID 1S) be revised from 5 lb/hr and 21.9 tons/year to 100 lb/hr (24-hr average), 55 lb/hr (30-day average), and 241 tons/year. [Condition 4.1 of both permits]
2. Armstrong requests that a new permit condition be added to the R13 permit to require CO and SO2 CEMS to monitor CO and SO2 emissions from the EAF outlet stack. [Condition 4.1.18 of Title V permit]
3. Armstrong requests that the dry lime scrubber (1C) operation and lime injection rates be contingent upon the SO2 CEMS emissions data. [Condition 4.1.3 of both permits]
4. Armstrong requests that several permit conditions requiring sulfur content analyses be deleted as unnecessary due to the use of the SO2 CEMS. [Conditions 4.1.8, 4.1.9, 4.2.4, 4.2.5, and 4.2.9 of R13 permit and Conditions 4.1.9, 4.1.10, 4.2.4, 4.2.5, and 4.2.8 of Title V permit]
5. Armstrong requests that several permit conditions requiring manganese content analyses be deleted as unnecessary based on the very low levels of manganese emissions measured at the baghouse exhausts (Emissions Units 1S, 3S, and 4S) during the January 2013 performance testing. [Conditions 4.1.5 and 4.2.8 of R13 permit and Conditions 4.1.5 and 4.2.7 of Title V permit]
6. Armstrong requests that the performance testing requirements for CO and SO2 be deleted as unnecessary due to the use of the CO and SO2 CEMS. [Condition 4.3.1.1 of both permits]
7. Armstrong requests that the annual emission limits for the diesel backup generator (Emission Unit ID 7S) be reduced to reflect a maximum annual operating schedule of 500 hours/year. [Condition 4.1.1 of R13 permit and Condition 6.1.1 of Title V permit]
8. Armstrong requests corrections to the listed equipment "design capacity" rates for the EAF furnace (1S), the spinner collection chambers (3S and 4S) and the slag wool processing lines (15S and 16S). A revised facility-wide air emissions inventory is provided in Attachment N that reflects these requested revisions and the reduction in annual operating hours to 500 hours/year for the backup generator (7S). [Condition 1.0 of both permits]

We are enclosing one (1) printed copy of the permit application which has been signed by a responsible official. We are also enclosing the entire application in electronic format on two (2) CDs. Forms are included for those emissions units affected by the requested permit revisions (1S and 7S).

Your ideas become reality.
