Why don't we just go ahead and leave them for now then. If we determine that we really won't need them, then we can deal with it.

Absolutely! It's also just totally fine to leave them in the permit, even if they don't think they'll need more. Completely up to you!

Hi Ms. Suszkowski,

I just wanted to let you know that the facility is permitted for three engines (originally all three Waukesha). Would you like to keep the permit for three engines, or would you like to have the other two stricken from the permit?

Thank you again!

Caraline,

It is my understanding that there is only 1 engine on this location. As such, we are swapping out the existing Waukesha engine with the Caterpillar Model G3306NALCR engine. Not sure why it was permitted for 3, perhaps during the original permitting they may have thought they would eventually need 3 engines. Hope this helps.

Hi Ms. Suszkowski,

I was sending out the permit to be signed today and was reviewing everything and discovered I may have a big question: Are you changing out only one of the three existing Waukesha engines, exchanging all three, or removing all three to be replaced with one Caterpillar Model G3306NALCR engine? The way the process description reads, it sounds like there will only be the Caterpillar Engine with the two tanks (T01 and T02) on site, and the exchange description reads for an exchange of one Waukesha engine, but there are a total of three.

I may be just confusing myself, but I wanted to be absolutely sure what was going on.

Thank you so much for all your help and I look forward to hearing back from you. Hopefully can have this all situated and figured out by the end of the day.

Best,

Caraline Griffith

Hi Caraline!! Thank you so much for the email. I apologize for the delayed response. I was out of the office when it came through and somehow got lost in my million email messages.

To answer your question, only I need to be copied on the completeness letter and the permit when it is complete. Rocky reports to me, so I will make sure that he gets a copy of each out to the field. If you have any other questions, please let me know. Thanks!!

Subject: ARP Mountaineer Production, LLC - SD-11 Facility - Permit Status

Hello Ms. Suszkowski,

It is a pleasure to be working on your permit modification for the SD-11 facility in Harper, Raleigh County, WV. I have just finished reviewing your application and have deemed it complete today, July 24, 2015. The 90 statutory review period will also begin today. I will be mailing out official completeness letters today, so you should receive them soon. I was also wondering if there was any persons that need to be copied on the completeness letter and final permit when it is complete? I have a William Monroe on my records, but don't have an email for him. I also received business cards from Rocky Stilwell (copied). Would both of these gentlemen need to be copied on these forms, or just one?

Thank you, and I look forward to hearing back from you.

Best regards,

Caraline Griffith

RE: Application Status: Complete
ARP Mountaineer Production, LLC
SD-11 Compressor Site
Permit Application No. G30-D148A
Plant ID No. 081-00227

Dear Ms. Suszkowski:

Your application for a G30-D permit for a natural gas compressor station was received by this Division on July 21, 2015 and assigned to the writer for review. Upon review of said application, it was determined that the application was complete on July 24, 2015 and, therefore, the statutory review period commenced on July 24, 2015.

In the case of this application, the agency believes it will take no more than 90 days to make a final permit determination.

This determination of completeness shall not relieve the permit applicant of the requirement to subsequently submit, in a timely manner, any additional or corrected information deemed necessary for a final permit determination.

Should you have any questions, please contact me at (304) 926-0499 ext. 1258.

Sincerely,

Caraline Griffith
