MEMORANDUM

To: Beverly McKeone
From: Caraline Griffith
Date: August 18, 2015
Subject: SDR Plastics, Inc. – Ravenswood Facility – Jackson County, WV
ID #: 035-00005
APP #: PD15-063

SDR Plastics, Inc. is proposing the incorporation of polyethylene resin (PP), polypropylene resin (PE), and specialty thermoplastic polyolefin resin (TPO) into the product offering at the above subject facility.

The use of these products will result in no emission increases at the facility. Also, as the permit currently reads:

The permittee shall notify the Director in writing, via a Permit Determination, of the propose resin type to be used and the HAP(s) contained therein within thirty (30) days of the initial use of the resin. Additionally, an MSDS sheet for the proposed resin type shall be supplied at this time to the Director.

RECOMMENDATION:

Since all necessary documents were supplied, and no emissions will be increased, a permit or permit update is not required.
