Re: G70-A108A, Antero Resources Corporation (Antero), Lemley Wellpad

On March 11, 2015 the WVDEP-DAQ received a Class I Administrative Update request from Antero to correct typographical errors that exist in Permit Registration G70-108.

§45-13-4 contains regulatory requirements on obtaining administrative updates to existing permits. Specifically §45-13-4.2.a outlines the requirements for Class I administrative updates. This proposed permitting action qualifies for a Class I administrative update due to the fact that there will only be typographical errors corrected. There is no application fee or required legal advertisement for a Class I administrative update. The NO_x and CO emissions were transposed in the engineering evaluation and registration.

1. The NO_x and CO in lbs/hr and tons/yr for the GPU heaters have been corrected in the registration.
