RE: **Class I Administrative Update
Poca T Compressor Station
Cabot Oil & Gas Corporation**

Dear Director Durham:

Cabot Oil & Gas Corporation (Cabot) is pleased to submit this written request for a Class I Administrative Update to the existing General Permit G35-A for the Poca T Natural Gas Compressor Station located in Newhall, McDowell County, West Virginia. The Poca T Compressor Station currently operates under permit number G35-A090A. An original hard copy and two electronic copies (CD-ROM) of this written request are included with this submission.

Cabot was issued permit G35-A090A from the WVDEP, Division of Air Quality (WVDAQ) on November 23, 2015. Upon receipt of G35-A090A, Cabot noted that Cranberry Pipeline Corporation was incorrectly named on the permit. Also, on page 2 of 4 and page 4 of 4 of the permit three errors were identified as detailed below:

1. Page 2 of 4
 - a. "G35-A090 supersedes and replaces General Permit Registration G35-A090."
 - i. The A is missing from the end of the new General Permit.
 - b. "Correcting the natural gas reboiler from 018 mmBTU/hr to 0.25 mmBTU/hr and remove the TEG Storage Tank (T02)."
 - i. The decimal point is missing from 0.18 mmBTU/hr.
2. Page 4 of 4
 - a. RBV-1 in Emission Units table under the design column states 0.18 mmBTU/hr.
 - i. This should be changed to 0.25 mmBTU/hr.

Cabot requests that these items be corrected and the permit be reissued incorporating the above referenced changes. If you have any questions about the information submitted or if you would like to discuss this project, please do not hesitate to contact me at (304) 347-1642.

Sincerely,

M. Brody Webster, CSP
North Region Manager, Safety and Environment
