Re: Permit Applicability Determination
SWN Production Company LLC
Kathy Mayhew Pad
Determination No. PD15-101
Plant ID No. 009-00100

Dear Ms. Evans,

It has been determined that a modification permit will be required under 45CSR13 for your proposed modification of a natural gas production facility. This determination is based on information included with your permit determination form dated November 25, 2015 and received on December 1, 2015, which indicates that the change will cause a violation of a permit condition in permit R13-2975B and the combustor replacement is subject to a substantive requirement under 45CSR6.

The appropriate application forms which need to be completed can be obtained from the WVDEP website at www.dep.wv.gov/daq/. Submit the completed forms, appropriate permit application fee, and any other applicable fees to the above address. If you should have any questions concerning which forms are required or have trouble downloading them, call the Permitting Secretary at (304) 926-0499 ext. 1250. Please address this matter as soon as possible to ensure expediency of the permit review process.

Should you have any questions, please contact the undersigned engineer at (304) 926-0499 ext. 1223.

Sincerely,

Jerry Williams, P.E.
Engineer
