**MEMORANDUM**

To: Bev McKeone, NSR Program Manager

From: Caraline Griffith, Engineer Trainee

Date: December 17, 2015

Subject: Administrative Update, G35-A090B, Cranberry Pipeline Corporation

On December 16, 2015 the DAQ received an administrative update request for Cranberry Pipeline Corporation to make changes to Permit Registration G35-A090A. Attached to this memo are the requested changes, letter of approval, and updated General Permit Registration G35-A090B.

Based on 45CSR13 "Class I Administrative Updates" are limited to changes including typographical errors, which is what is occurring in this permit registration. Therefore, a Class I Administrative Update is needed and it is recommended for approval.

The typographical errors that were corrected were to be:

1. On page 2 of 4:

"G35-A090 supersedes and replaces General Permit Registration G35-A090." to "G35-A090A supersedes and replaces General Permit Registration G35-A090."

Since this would be changed with the new permit issuance anyway, it now states:

"G35-A090B supersedes and replaces General Permit Registration G35-A090A."

2. In the Description of Change section the decimal was missing from the 0.18 mmBTU/hr, however since the Description of Change section was going to change with this update it now states "Typographical Errors."

3. Page 4 of 4: RBV-1 in Emissions Unit Table under the design column stated 0.18 mmBTU/hr. This was changed to the corrected 0.25 mmBTU/hr.
