### MEMORANDUM

**To:** Bev McKeone  
**From:** Jerry Williams *JW*  
**Date:** December 10, 2015  
**Subject:** R13-3143B, Chevron Appalachia, LLC, Crow Natural Gas Production Site (051-00187)

Chevron Appalachia, LLC (Chevron) submitted R13-3143B on October 27, 2015. This Class II administrative update request proposed the replacement of a flash gas compressor engine with a replicate model. I deemed that no changes to any permit conditions were necessary. The proposed engine was the same make and model and were subject to the same regulatory requirements that existed in their current permit. Therefore, I contacted Amy McGreevy of Chevron and suggested she withdraw this permit application. On December 9, 2015, the DAQ received Chevron's letter to the DAQ stating that they wish to withdraw this application.
