RE: Permit Applicability Determination
CNX Gas Company, LLC
Camden 17
Determination No. PD15-004
Plant ID No. 041-00067

Dear Mr. Neal:

It has been determined that a permit will not be required under 45CSR13 for the proposed two (2) 1.0-mmBtu/hr GPUs, four (4) 210-bbl produced water tanks, two (2) 210-bbl condensate tanks, and tanker truck loading for Camden 17. This determination is based on the application provided, which indicates that the increase in emissions will not exceed two (2) lbs/hr OR five (5) tons/year of total Hazardous Air Pollutants (HAPs); six (6) lbs/hour AND ten (10) TPY of any regulated air pollutant; or, subject to a substantive requirement.

Should you have any questions, please contact the undersigned engineer at (304) 926-0499 ext. 1224.

Sincerely,

David Keatley
Permit Writer - NSR Permitting
