Re: R13-1814E, MarkWest Energy Appalachia, LLC, Kenova

On January 26, 2015 the WVDEP-DAQ received a Class I administrative update request from Chesapeake Appalachia LLC to correct typographical errors that existed in Permit R13-1814D.

§45-13-4 contains regulatory requirements on obtaining administrative updates to existing permits. Specifically §45-13-4.2.a outlines the requirements for Class I administrative updates. This proposed permitting action qualifies for a Class I administrative update due to the fact that there will be typographical errors corrected. There is no application fee or required legal advertisement for a Class I administrative update. These changes will result in no increase in air emissions.

The following typographical errors were changed:

1. Permit, page 2, UTM coordinates have been corrected.
2. Permit, page 4, section 1.0, Corrections to engine S-6.
3. Permit, page 17, section 5.1.2., Natural gas throughput for engine S-6.
