**AIR QUALITY
PERMIT NOTICE**

**Notice of Intent
to Approve**

On October 23, 2015, Mountain Valley Pipeline, LLC applied to the WV Department of Environmental Protection, Division of Air Quality (DAQ) for a permit to construct a Natural Gas Compressor Station located near Meadow Bridge, Fayette County, WV at latitude 37.868033 and longitude -80.757717. A preliminary evaluation has determined that all State and Federal air quality requirements will be met by the proposed facility. The DAQ is providing notice to the public of

its preliminary determination to issue the permit as R13-3277.

The following potential emissions will be authorized by this permit action: Particulate Matter less than 10 microns, 20.30 tons per year (TPY); Particulate Matter, 20.30 TPY; Oxides of Nitrogen, 79.84 TPY; Carbon Monoxide, 91.28 TPY; Volatile Organic Compounds, 13.46 TPY; Total Hazardous Air Pollutants, 4.53 TPY.

Written comments or requests for a public meeting must be received by the DAQ before 5:00 p.m. on Wednesday, February 24, 2016. A public meeting may be held if the Director of the DAQ determines that significant public interest has been expressed, in writing, or when the Director deems it appropriate.

The purpose of the DAQ's permitting process is to make a preliminary determination if the proposed Construction will meet all State and Federal air quality requirements. The purpose of the public review process is to accept public comments on air quality issues relevant to this determination. Only written comments received at the address noted below within the specified time frame, or comments presented orally at a scheduled public meeting, will be considered prior to final action on the permit. All such comments will become part of the public record.

**RE: Application Status: Complete
Mountain Valley Pipeline - Stallworth Station
Permit Application R13-3277
Plant ID No. 019-00116**

Mr. Posey

Your application for a Construction permit for a Natural Gas Compressor Station was received by this Division on October 23, 2015 and assigned to the writer for review. Upon review of said application, it has been determined that the application is complete and, therefore, the statutory review period commenced on December 23, 2015.

In the case of this application, the agency believes it will take approximately 90 days to make a final permit determination.

This determination of completeness shall not relieve the permit applicant of the requirement to subsequently submit, in a timely manner, any additional or corrected information deemed necessary for a final permit determination.

Should you have any questions, please contact Roy F. Kees, P.E. at (304) 926-0499 ext. 1222 or reply to this email.

Re: Mountain Valley Pipeline, LLC – Stallworth Compressor Station
Permit Application No. R13-3277

Dear Mr. Kees:

On November 23, 2015, Mountain Valley Pipeline, LLC (MVP) received a request to perform an aggregation analysis as a supplement to the construction permit application that is currently on file at the West Virginia Department of Environmental Protection (WVDEP). The requested aggregation analysis is included below.

Mountain Valley Pipeline, LLC (MVP) is a joint venture of affiliates of EQT Corporation (EQT), NextEra Energy, Inc., WGL Holdings, Inc., Vega Energy Partners, Ltd., and RGC Midstream, LLC. MVP will operate the proposed pipeline facilities and Stallworth compressor station (SIC code 4922).

There are no MVP facilities located adjacent to or contiguous to the proposed Stallworth Station. The closest MVP facility is the proposed Harris Station, located approximately 60 miles away from the proposed Stallworth Station.

An affiliate of EQT is MVP's operating partner. There are no EQT facilities located adjacent to or contiguous to the proposed Stallworth Station. The nearest EQT facility is the Flat Top Compressor Station (SIC code 1311), located approximately 26 miles from the proposed Stallworth Station. The nearest EQT well pad (SIC code 1311) is located approximately 62 miles from the proposed Stallworth Station. Finally, it should be noted that operation of the Stallworth Station, Harris Station, Flat Top Station, and the well pad is independent of one another. As such, the Stallworth Station should not be aggregated with any other facility.

Should you have additional questions or require more information, please do not hesitate to contact me at 412.553.7848 or rhenry@eqt.com.

Sincerely,
Mountain Valley Pipeline, LLC

**RE: Application Status: Incomplete
Mountain Valley Pipeline, LLC - Stallworth Station
Permit Application No. R13-3277
Plant ID No. 019-00116**

Mr. Posey:

Your application for a Construction permit for a Natural Gas Compressor Station was received by this Division on October 23, 2015 and assigned to the writer for review. Upon initial review of said application, it has been determined that the application as submitted is incomplete based on the following items:

1. Need aggregation analysis performed for site. (See Attached)

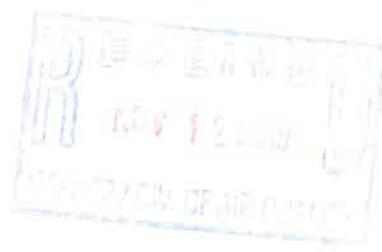

Please address the above deficiencies in writing within fifteen (15) days of the receipt of this email. Application review will not commence until the application has been deemed to be technically complete. Failure to respond to this request in a timely manner may result in the denial of the application.

Should you have any questions, please contact Roy F. Kees at (304) 926-0499 ext. 1222 or reply to this email.

COPY OF PUBLICATION

**AIR QUALITY PERMIT NOTICE
Notice of Application**

Notice is given that Mountain Valley Pipeline, LLC (MVP) has applied to the West Virginia Department of Environmental Protection, Division of Air Quality, for a construction permit (R-13) to construct a new natural gas transmission compressor station (Stallworth Station) located on Dawson-Springdale Rd about 5 miles east of Meadow Bridge in Fayette County, West Virginia. The site latitude and longitude coordinates are: 37.86801 N, -80.75776 W.

The applicant estimates the potential increase in the following Regulated Air Pollutants associated with the project after the installation of the proposed equipment:

Particulate Matter (PM) = 20.30 tpy
Sulfur Dioxide (SO₂) = 4.74 tpy
Volatile Organic Compounds (VOC) = 13.46 tpy
Carbon Monoxide (CO) = 91.28 tpy
Nitrogen Oxides (NO_x) = 79.84 tpy
Hazardous Air Pollutants (HAPs) = 4.53 tpy
Carbon Dioxide Equivalents (CO_{2e}) = 169,866 tpy

Startup of operation will begin around the 4th quarter of 2017. Written comments will be received by the West Virginia Department of Environmental Protection, Division of Air Quality, 601 57th Street, SE, Charleston, WV 25304, for at least 30 calendar days from the date of publication of this notice.

Any questions regarding this permit application should be directed to the DAQ at (304) 926-0499, extension 1250, during normal business hours.

Dated on October 28, 2015.

**RE: Application Status
Mountain Valley Pipeline, LLC
Stallworth Station
Plant ID No. 019-00116
Application No. R13-3277**

Mr. Posey,

Your application for a construction permit for the Stallworth Compressor Station was received by this Division on October 23, 2015, and was assigned to Roy Kees. The following items were not included in the initial application submittal:

Original affidavit for Class I legal advertisement not submitted.

Application fee AND/OR additional application fees:

**\$1,000 Construction, Modification, Relocation or Temporary Permit*

**1,000 NSPS*

(You may contact the Accounts Receivable section at 304 926-0499 ext. 4888 or Beth Ward at ext. 1846 to pay via credit card. DEP accepts Visa and MasterCard only.)

These items are necessary for the assigned permit writer to continue the 30-day completeness review.

Within 30 days, you should receive a letter from Roy stating the status of the permit application and, if complete, given an estimated time frame for the agency's final action on the permit.

Any determination of completeness shall not relieve the permit applicant of the requirement to subsequently submit, in a timely manner, any additional or corrected information deemed necessary for a final permit decision.

Should you have any questions, please contact the assigned engineer, Roy Kees, at 304-926-0499, extension 1222.
