MEMORANDUM

To: Bev McKeone
From: Jerry Williams 
Date: February 22, 2016
Subject: PD16-017, HEP Shalewater Solutions, LLC (017-00160)

HEP Shalewater Solutions, LLC submitted PD16-017 on February 5, 2016. PD16-017 was submitted to request a determination for a brine water treatment and recycling facility.

Based on the information submitted with PD16-017, HEP Shalewater Solutions, LLC did not provide the following required information:

- Truck unloading emission calculations (EPA AP-42 Emission Factors)
- Process Tanks emission calculations (EPA AP-42 Emission Factors, possible flashing emissions)
- Storage Tanks emission calculations (EPA AP-42 Emission Factors)
- Sludge and Wetcake Disposal emission calculations (Material Balance, EPA AP-42 Emission Factors)
- Bulk Transfer Point emission calculations (EPA AP-42 Emission Factors)
- Fugitive Dust Haulroad emission calculations (EPA AP-42 Emission Factors)

I contacted Doug Amos with HEP Shalewater Solutions, LLC in an attempt to collect this information. He stated that he did not feel the information was required due to the facility being a small operation. He stated that he would provide the information.

Because there was not enough information available, a no decision letter has been issued.
