Re: Permit Applicability Determination  
Belle Plant  
Kanawha County, WV  
Determination No. PD15-043  
Plant ID No. 039-00001

Dear Mr. Byrd:

Your Permit Determination Form (PDF) was received by this Division on May 18, 2015, and assigned to the writer for review. Upon initial review of said PDF, it has been determined that the PDF as submitted is incomplete and no decision can be made based on the following items:

- The PDF did not contain the maximum vapor pressure of Dimethyl Amine to determine 40 CFR Part 60, Subpart Kb applicability.
- The PDF did not contain the number of tank turnovers associated with the Dimethyl Amine solution.
- There were no emissions calculations included in the PDF to support your potential emissions estimates with regards to Dimethyl Amine.

Please resubmit a new PDF when you have collected all pertinent information before the anticipated installation date. A PDF can be obtained from the WVDEP website at <http://www.dep.wv.gov>. Should you have any questions, please contact the undersigned engineer at (304) 926-0499 Ext. 1211.

Sincerely,

William T. Rothwell II, P.E.  
Engineer
