**MEMORANDUM**

**To:** Bev McKeone, NSR Program Manager

**From:** Caraline Griffith, Engineer Trainee

**Date:** May 18, 2015

**Subject:** Administrative Update, R13-1517D, Union Carbide Corporation

On May 15, 2015 the DAQ received an administrative update request for Union Carbide Corporation to make changes to Permit R13-1517D. Attached to this memo are the requested changes (identified by the red tabs), permit cover letter, completed database sheet, and updated Permit R13-2958C.

The requested changes were:

- On page 6 of Permit R13-1517C for Emission Unit ID 8701
  - Change Emission Unit ID to "8702" and Emission Description to "Bin 8702". Tank 8701 does not exist. Bin 8702 is used to process a solid material (neither a VOC nor HAP).
  - For Bin 8702 add the Year Installed (1993) and Design Capacity (5,610 gallons).
  
- On page 16 of Permit R13-1517C, Tank 8517 (T-8517) was not included in Table 4.1.1 in the R13-1517C Class I Administrative Update.

Based on 45CSR13, "Class I Administrative Updates" are limited to changes including typographical errors, which is what is occurring in this administrative update request. Therefore, a Class I Administrative Update is needed and it is recommended for approval.
