**MEMORANDUM**

To: Bev McKeone, NSR Program Manager

From: Caraline Griffith, Engineer Trainee

Date: June 16, 2015

Subject: Administrative Update, G70-A150A, Antero Resources Corporation

On June 11, 2015 the DAQ received an administrative update request for Antero Resources Corporation to make changes to Permit Registration G70-A150. Attached to this memo is the letter of approval and updated General Permit Registration G70-A150A.

Based on 45CSR13 "Class I Administrative Updates" are limited to changes including typographical errors, which is what is occurring in this permit registration. It is being requested that Section 12: Standards of Performance for Storage Vessel Affected Facilities (NSPS OOOO) remain unchecked, as it does not apply to the storage vessels located at this facility. This was determined by noting that the emissions of VOC from each individual tank do not exceed 6 tpy and are therefore not subject to NSPS OOOO. Therefore, a Class I Administrative Update is needed and it is recommended for approval.
