Re: G70-A118A, Antero Resources Corporation (Antero), Kelly Wellpad

On March 11, 2015 the WVDEP-DAQ received a Class I Administrative Update request from Antero to correct typographical errors that existed in Permit Registration G70-A118.

§45-13-4 contains regulatory requirements on obtaining administrative updates to existing permits. Specifically §45-13-4.2.a outlines the requirements for Class I administrative updates. This proposed permitting action qualifies for a Class I administrative update due to the fact that there will only be typographical errors corrected. There is no application fee or required legal advertisement for a Class I administrative update. The condensate and produced water throughputs in section 1.0 of the permit registration need to be corrected.

1. The condensate and produced water throughputs in the permit registration in section 1.0 have been corrected.
