MEMORANDUM

To: Beverly D. McKeone
From: Steven R. Pursley, PE *SRP*
Date: 5-21-15
Subject: R13-3025B

On May 13, 2015, Union Carbide Corporation submitted a request for a Class I Administrative Update to permit R13-3025A. On February 6, 2015, DAQ issued a Class I administrative update to permit R13-3025 to, among other things, change the temperature monitoring location requirement from the combustion chamber inlet to the combustion chamber. This change was made to condition 4.1.4.1. However, the change was erroneously not carried through to permit conditions 4.3.4.1 and 4.3.4.5. This administrative update corrects that.

The following changes were made to permit R13-3025A:

- * The phrase "inlet gas" was changed to "combustion chamber" in condition 4.3.4.1.
- * The phrase "inlet gas" was changed to "combustion chamber" in condition 4.3.4.5.
