RE: Permit Applicability Determination
SWN Production Company
Van Aston Pad
Determination No. PD15-034
Plant ID No. 051-00208

Dear Mr. Geiger:

It has been determined that changes to the permit registration for the three (3) 145-bhp flash gas compressor engines will not be required under 45CSR13. This determination is based on the application provided, which indicates that the increase in emissions will not exceed two (2) lbs/hr OR five (5) tons/year of total Hazardous Air Pollutants (HAPs); six (6) lbs/hour AND ten (10) TPY of any regulated air pollutant; or, subject to a substantive requirement.

Should you have any questions, please contact the undersigned engineer at (304) 926-0499 ext. 1224.

Sincerely,

David Keatley
Permit Writer - NSR Permitting
