# MEMORANDUM

To: Bev McKeone, NSR Program Manager

From: Caraline Griffith, Engineer Trainee

Date: May 6, 2015

Subject: Administrative Update, G70-A111A, Antero Resources Corporation

On April 30, 2015 the DAQ received an administrative update request for Antero Resources Corporation to make changes to Permit Registration G70-A111. Attached to this memo is the letter of approval and updated General Permit Registration G70-A111A.

It is being requested that the manufacturer of the combustor be changed from Abutec to Cimarron. Based on 45CSR13 "Class I Administrative Updates" are limited to changes including permit conditions to incorporate any new more stringent requirements related to an applicable rule promulgated after the existing permit was issued and that do not result in a physical change in or change in the method of operation of the source, which is what is occurring in this permit registration. Therefore, a Class I Administrative Update is needed and it is recommended for approval.
