MEMORANDUM

To: Bev McKeone, NSR Program Manager

From: Caraline Griffith, Engineer Trainee

Date: October 6, 2015

Subject: Class I Administrative Update, R13-3023A, SWN Production Company, LLC

On September 25, 2015 the DAQ received an administrative update request for SWN Production Company, LLC to make changes to Permit R13-3023A. Attached to this memo is the letter of approval and updated Permit R13-3023A.

It is being requested that the Caterpillar G3304 NA compressor engine (EU-MC1337) located at the Margaret Sue Kelley wellpad be removed based on the basis that the flash gas emissions produced by the site have decreased to a point where the compressor engine is no longer needed to handle these emissions. Based on 45CSR13 "Class I Administrative Updates" are limited to changes including the permanent removal of equipment, not including air pollution control equipment. Therefore, a Class I Administrative Update is needed and it is recommended for approval.
