Re: Permit Applicability Determination: No Decision
Sand Hill 4 Tank Pad
Marshall County, WV
Determination No. PD16-057
Plant ID No. 051-00229

Dear Mr. Moses:

Your Permit Determination Form (PDF) for the above referenced after-the-fact facility was received by this Division on September 29, 2016, and assigned to the writer for review. An email requesting additional information was sent on September 30, 2016 and as of today's date no response was received. Upon initial review of said PDF, it has been determined that the PDF as submitted is incomplete and no decision can be made based on the following items:

- For a reasonable estimate of emissions for these tanks from ProMax please estimate using atmospheric data from the area.
- Please provide the output from ProMax in a format where the text is no less than 10-font.
- Please keep in mind the UTM coordinates are to be listed in kilometers rather than meters.
- Please provide the sample data used to estimate the emissions from the tanks.

Please resubmit a new PDF when you have collected all pertinent information before the anticipated installation date. A PDF can be obtained from the WVDEP website at <http://www.dep.wv.gov>. Should you have any questions, please contact the undersigned engineer at (304) 926-0499 Ext. 1224.

Sincerely,

David Keatley
Permit Writer – NSR Permitting
