Re: Permit Applicability Determination  
WPHC-207 Compressor Station  
Wyoming County, WV  
Determination No. PD15-070  
Plant ID No. 109-00229

Dear Mr. McKinney:

Your Permit Determination Form (PDF) was received by this Division on August 7, 2015, and assigned to the writer for review. Upon initial review of said PDF and conversations on August 27, 2015 with Michael Dearing from your company, it has been determined that the PDF as submitted is incomplete and no decision can be made based on the following item:

- The PDF did not contain manufacturer's documentation of the actual date (mm/dd/yyyy) that the Arrow VRG-330 engine at the WPHC-207 station was manufactured. This engine is proposed to replace the existing Caterpillar G3306 engine. This item is required to determine 40CFR60 Subpart JJJJ applicability.

Please resubmit a new PDF when you have collected all pertinent information before the anticipated installation date. A PDF can be obtained from the WVDEP website at <http://www.dep.wv.gov>. Should you have any questions, please contact the undersigned engineer at (304) 926-0499 Ext. 1211.

Sincerely,

William T. Rothwell II, P.E.  
Engineer
