Re: Permit Applicability Determination  
Rhodes Brick & Block Company  
Kanawha, WV  
Determination No. PD16-051  
Plant ID No. 039-00110

Dear Mr. Rhodes:

It has been determined that a modification permit will be required under 45CSR13 for your proposed construction of a cement silo and baghouse. This determination is based on information included with your permit determination form dated August 16, 2016, which indicates that the increase in emissions will exceed six (6) lbs/hour and ten (10) TPY of any regulated pollutant.

The appropriate application forms which need to be completed can be obtained from the WVDEP website at [www.dep.wv.gov/daq/](http://www.dep.wv.gov/daq/). Submit the completed forms, appropriate permit application fee, and any other applicable fees to the above address. If you should have any questions concerning which forms are required or have trouble downloading them, call the Permitting Secretary at (304) 926-0499 ext. 1250. Please address this matter as soon as possible to ensure expediency of the permit review process.
