	Subpart DDDDD - Industrial Boiler and Process Heaters	<p>On 3-21-2011 EPA published final Major Source Rule in the Federal Register and initiated a reconsideration process to address technical issues with the rules and changes to the final rules that were not in the proposal.</p> <p>On 1-9-2012, the District of Columbia Circuit Court of Appeals reinstated the original compliance date for the Boiler MACT that the EPA published in March 2011. On 2-7-2012, the EPA provided a “No Action Assurance” (NAA) to boiler operators of major source facilities until 12-31-2012 or the effective date of the proposed rule, whichever comes first. This action means that the agency will use its discretion in enforcing the Boiler MACT requirements.</p>
