

Notice of Intent to Approve Class II General Permit G10-D for Coal Preparation and Processing Plants

The West Virginia Department of Environmental Protection Division of Air Quality (DAQ) is providing notice to the general public of its intent to modify and issue a Class II General Permit for the construction, modification, relocation of and to prevent and control air pollution from the operation of coal preparation and processing plants pursuant to WV Legislative Rules 45CSR13. Class II General Permit G10-D addresses the amendments to the New Source Performance Standards (NSPS) for 40CFR60 Subpart Y (Standards of Performance for Coal Preparation and Processing Plants). In addition, this permitting action includes requirements for reciprocating internal combustion engines, and the New Source Performance Standards of 40CFR60 Subpart IIII - Standards of Performance for Stationary Compression Ignition Internal Combustion Engines, and 40CFR60 Subpart JJJJ - Standards of Performance for Stationary Spark Ignition Internal Combustion Engines.

Provided that the applicant or registrant can demonstrate compliance with the requirements, provisions, standards and conditions of this Class II General Permit, the DAQ has determined that all state air quality requirements will be met by any eligible coal preparation and processing plant. Any coal preparation and processing plant granted Class II General Permit registration by the Director shall not have a potential to emit any criteria pollutant in an amount equal to or greater than 100 tons per year or 10 tons per year of any single hazardous/toxic pollutant and 25 tons per year of any combination of hazardous/toxic pollutants.

The public may provide written comments regarding this DRAFT Class II General Permit to the Division of Air Quality. **All written comments or requests for a public meeting must be received by the DAQ before 5:00 p.m. on June 14, 2010.** Based upon the significance of any written comments received addressing the subject of this notice, the Director of the DAQ may elect to hold a public meeting to receive further public comment. Prior to taking any final action on this permitting issue, the DAQ will consider only those written comments relevant to air quality issues which this Division has jurisdiction. Such written comments must be received within the specified time frame and at the address below.

This notice provides an opportunity for the public to review the DRAFT Class II General Permit and Engineering Evaluation. In the event you wish to submit written comments addressing the addition of New Source Performance Standards (NSPS) for 40CFR60 Subpart Y (Standards of Performance for Coal Preparation and Processing Plants), requirements for reciprocating internal combustion engines, and the New Source Performance Standards of 40CFR60 Subpart IIII - Standards of Performance for Stationary Compression Ignition Internal Combustion Engines, and 40CFR60 Subpart JJJJ - Standards of Performance for Stationary Spark Ignition Internal Combustion Engines, include your name, a return address, and a daytime telephone number and indicate any organization on behalf of which your comments are submitted. If, in your written comment you request that a public meeting be held to discuss this permitting action, please state the specific air quality issue(s) which you feel requires additional evaluation by this Division. All public comments are a part of the public record and are available for inspection by any interested party.

Copies of this DRAFT Class II General Permit, Engineering Evaluation and this Notice of Intent to Approve are available for public review on the DAQ website at <http://www.wvdep.org/daq> and at the following location between the hours of 8:00 a.m. and 5:00 p.m. Monday through Friday, holidays excluded, unless otherwise noted below:
