

Fact Sheet

For Final Minor Modification Permitting Action Under 45CSR30 and Title V of the Clean Air Act

This Fact Sheet serves to address the changes specific to this Minor Modification, and shall be considered a supplement to the Fact Sheet corresponding with the Title V operating permit issued on November 22, 2010.

Permit Number: **R30-01100062-2010**
Application Received: **August 15, 2013**
Plant Identification Number: **03-54-01100062**
Permittee: **Bimbo Bakeries USA, Inc.**
Mailing Address: **1300 Adams Avenue, Huntington, WV 25704**

Permit Action Number: *MM02* Revised: *April 16, 2014*

Physical Location: Huntington, Cabell County, West Virginia
UTM Coordinates: 371 km Easting • 4252 km Northing • Zone 17
Directions: Interstate 64 to Adams Avenue exit; between Adams and Washington
 Avenues, and between 13th Street West and 14th Street West.

Facility Description

Bimbo Bakeries USA, Inc. operates a commercial bread baking facility. The principal pollutant emitted is VOC, emitted from the baking ovens. The baking ovens fire natural gas. This modification involves changes based on the revised permit R13-2005D related to the increase in the annual production limit for the 18 Tray Baker Perkins 970 Oven (Emission Unit 3S) from 7,800 tons of buns per year to 11,000 tons per year. Also, the company requested a name change from Earthgrains Baking Companies, Inc. to Bimbo Bakeries USA, Inc.

Emissions Summary

The following emission increases from the 18 Tray Baker Perkins 970 Oven (Emission Unit 3S) are associated with the modification:

Regulated Pollutant	Maximum Potential Controlled Emissions change, TPY
CO	+0.35
NO _x	+0.40
PM ₁₀	+0.03
VOC	+11.00

Title V Program Applicability Basis

With the proposed changes associated with this modification, this facility maintains the potential to emit over 100 tons per year of VOCs, therefore Bimbo Bakeries USA, Inc. is required to have an operating permit pursuant to Title V of the Federal Clean Air Act as amended and 45CSR30.

Legal and Factual Basis for Permit Conditions

The State and Federally-enforceable conditions of the Title V Operating Permits are based upon the requirements of the State of West Virginia Operating Permit Rule 45CSR30 for the purposes of Title V of the Federal Clean Air Act and the underlying applicable requirements in other state and federal rules.

The modification to this facility has been found to be subject to the following applicable rules:

Federal and State: 45CSR13 Construction permit
 45CSR30 Operating permit requirement.

Each State and Federally-enforceable condition of the draft Title V Operating Permit references the specific relevant requirements of 45CSR30 or the applicable requirement upon which it is based. Any condition of the draft Title V permit that is enforceable by the State but is not Federally-enforceable is identified in the draft Title V permit as such.

The Secretary's authority to require standards under 40 C.F.R. Part 60 (NSPS), 40 C.F.R. Part 61 (NESHAPs), and 40 C.F.R. Part 63 (NESHAPs MACT) is provided in West Virginia Code §§ 22-5-1 *et seq.*, 45CSR16, 45CSR34 and 45CSR30.

Active Permits/Consent Orders

Permit or Consent Order Number	Date of Issuance	Permit Determinations or Amendments That Affect the Permit (if any)
R13-2005D	January 27, 2014	

Conditions from this facility's Rule 13 permit(s) governing construction-related specifications and timing requirements will not be included in the Title V Operating Permit but will remain independently enforceable under the applicable Rule 13 permit(s). All other conditions from this facility's Rule 13 permit(s) governing the source's operation and compliance have been incorporated into this Title V permit in accordance with the "General Requirement Comparison Table B," which may be downloaded from DAQ's website.

Determinations and Justifications

The following changes were done to the Permit:

1. Emission Units Table 1.1 - revised in accordance with R13-2005D.
2. Requirements 3.1.9, 4.1.2, 4.1.4 - 4.1.6, 4.1.11 (re-numbered as 4.1.10), 4.4.1 and 4.4.2 were revised in accordance with the revised underlying R13-2005D permit requirements.

Non-Applicability Determinations

The following requirements were found not applicable:

1. Requirement 4.1.4 - SO₂ emission limits for ovens (Emission Units 1S, 2S and 3S) were found not necessary for this source and were eliminated during R13 permitting process.
2. Requirement 4.1.10 (R13-2005C, condition 4.1.4) - deleted because it was found redundant during R13 permitting process and was not included in R13-2005D.
3. Requirements 3.1.10 and 3.5.10 (45CSR§§42-3.1, 4.1, 4.2 and 4.5) - deleted because the rule 45CSR42 was repealed by S.B. 253 on June 1, 2012.

Request for Variances or Alternatives

None.

Insignificant Activities

Insignificant emission unit(s) and activities are identified in the Title V application.

Comment Period

Beginning Date: N/A
Ending Date: N/A

Point of Contact

All written comments should be addressed to the following individual and office:

Natalya V. Chertkovsky-Veselova
Title V Permit Writer
West Virginia Department of Environmental Protection
Division of Air Quality
601 57th Street, S.E.

Procedure for Requesting Public Hearing

During the public comment period, any interested person may submit written comments on the draft permit and may request a public hearing, if no public hearing has already been scheduled. A request for public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing. The Secretary shall grant such a request for a hearing if he/she concludes that a public hearing is appropriate. Any public hearing shall be held in the general area in which the facility is located.

Response to Comments

Not applicable.
