

## RULE 45CSR22 FEE SCHEDULE

Facility/Source Category	Fee	Facility/Source Category	Fee
<b>Group 1</b>	<b>\$10,000</b>	<b>Group 8</b>	<b>\$500</b>
A Integrated Steel Plant		A Hot Mix Asphalt Paving Plant	
B Electric Utility Plant (rated 300 MW or greater)		B Wool Fiberglass Insulation Production Plant	
<b>Group 2</b>	<b>\$8,000</b>	C Sewage Sludge Incinerator	
A Primary Aluminum Plant		D Natural Gas Compressor Station (total reciprocating engine capacity greater than 1,000 hp and/or total turbine capacity greater than 8,000 hp)	
B Furnace and Foundry Coke Production Plant		E Nonmetallic Minerals Processing Plant (primary crushing capacity greater than 100 tons/hr but less than 500 tons/hr)	
C Portland Cement Plant		F Sulfuric Acid Manufacturing Plant	
D Kraft Pulp Mill		G Coal or other Solid Fuel-Fired Boilers or Process Fuel Burning Equipment with total design heat input greater than 50 mmBtu/hr but less than 100 mmBtu/hr, excluding all boilers less than 10 mmBtu/hr	
<b>Group 3</b>	<b>\$5,000</b>	H Refractory Manufacturing Plant	
A Chemical Production Plant with Steam Plant(s) having total design heat input greater than 350 mmBtu/hr		I Metal Reclamation Furnace (wire, electrical equipment, batteries)	
B Hazardous Waste Incinerator		J Miscellaneous Surface Coating (not otherwise listed and greater than 100 tons/yr maximum emissions of volatile organic compounds)	
C Electric Utility Plant (rated less than 300 MW)		K Coal Preparation Plant (wet washing or pneumatic cleaning not otherwise listed)	
<b>Group 4</b>	<b>\$4,000</b>	L Clay Processing/Brick Manufacturing	
A Petroleum Refinery		<b>Group 9</b>	<b>\$200</b>
B Ferroalloy Production Plant		A On-site Pathological/Infectious Waste Incinerator	
C Any source containing chemical processing units emitting one or more toxic air pollutants and subject to regulation under 45CSR27 for which a higher operating certificate fee is not applicable		B Crematory Incinerator	
<b>Group 5</b>	<b>\$3,000</b>	C Other Glass Manufacturing including Specialty Manufacturing	
A Chemical Production Plant (three process units or greater)		D Plastic Products Recovery Facility	
B Primary Metal Plant (not otherwise listed)		E Miscellaneous Surface Coating (not otherwise listed and greater than 25 tons/yr maximum emissions of volatile organic compounds)	
<b>Group 6</b>	<b>\$2,000</b>	F Tank Truck and Railroad Tank Car Cleaning/Repair Facility	
A Rocket Fuel Plant		G Metal or Ore Briquette Manufacturing/Recovery Facilities	
B Chemical Production Plant (less than three process units)		H Gray Iron Foundry	
C Carbon Products Plant (not otherwise listed)		I Coal Processing and Handling (not otherwise listed)	
D Petroleum Storage and Distribution Facility (greater than 20 million gal/yr gasoline throughput)		J Nonmetallic Minerals Processing Plant (primary crusher capacity less than 100 tons/hr)	
E Glass Production Plant (total pull rate greater than 6,000 lb/hr)		K Natural Gas Sweetening Plant	
F Commercial/Industrial or Commercial Infectious Waste Disposal Facility		L Printing Facility (emitting greater than 150 lbs/day of volatile organic compounds)	
<b>Group 7</b>	<b>\$1,000</b>	M All other sources (excluding indirect affected sources) subject to air emission rules, permit and/or registration requirements	
A Nonmetallic Mineral Products Processing Plant (500 ton/hr or greater primary crushing capacity)			
B Coil, Can or Sheet Coating Facility			
C Coal Preparation Plant with Thermal Dryer			
D Coal or other Solid Fuel-Fired Boilers or Process Equipment (total design heat input greater than 100 mmBtu/hr, excluding all boilers less than 10 mmBtu/hr design heat input)			
E Lead, Aluminum or Copper Recovery Plant			
F Asphalt Building Product Plant			
G Secondary Metals Plant (not otherwise listed)			
H Charcoal Plant			
I Lime Manufacturing Plant
