OTHER AREAS OF CONCERN:

COMMENTS

Arrived at Freedom at 2:22. Terracon was scheduled to be on site but due to mechanical issues with their equipment they were unable to move their equipment to Freedom. Have informed Dave Long of their absence. Charleston is no longer accepting water from the site so it is being transported to Belpre. Approximately 16,600 gallons were removed today. Baker was hooking up a container for removal on my arrival.

Gary Houseman-excavation operator and Jane Clapp were the only employees at facility on my arrival. No other work was to be accomplished on this date other than water removal according to Mr. Houseman.
