**OTHER AREAS OF CONCERN:**

**COMMENTS**

Time in at Freedom was 14:47.

Personnel on site were were Kinder Tuckwiller of Core Environmental, Lance Wilcox, Gary Houseman and Seth Wilcox. No equipment was being operated on my arrival.

Kinder showed the area around the natural gas line found which has been fenced off.

Frack tanks are no longer on site.

More block will be delivered on Monday March 21<sup>st</sup> to continue work along river front to help with stabilization of soil.

Kinder stated a rock drainage area facing MW10 will be created to help with rain runoff.

Departed site at 15:15.
