### **COMMENTS, REMARKS AND REQUIREMENTS**

1. I note that this title does not cover questions of vacancies, excess or deficiencies, boundaries, encroachments, uses not of record, environmental issues, or other matters that would be revealed by a survey of visual inspection of the premises. I recommend that an accurate survey of the Subject Tract and all related outsales, easements and rights of way, be obtained prior to mining, improving or using the Subject Property for the following reasons:

- a. The vagueness of the recorded descriptions of the Subject Property and surrounding properties;
- b. The discrepancies in the documents of record; and
- c. To determine the precise acreage of the Subject Property, as well as the location of rights-of-way, easements, and outsales that potentially affect the Subject Property.

I note herein that acreage totals listed under the oil and gas ownership information, and elsewhere within this report of title are based upon recitals within the various and sundry instruments within the chain of title, and may not be precise. The acreage totals appearing in this title report are subject to revision or confirmation by an appropriate survey of the respective parcels.

2. This title opinion is subject to the correctness of the indices and documents of record in the Office of the Clerk of the County Commission of Tyler County, West Virginia.

3. The opinions expressed herein are subject to the correctness of my assumption that the leases of record in **Other Oil and Gas Leases** have terminated under their own terms or through abandonment or non-production or the non-payment of delay rentals or shut-in royalties. I recommend you undertake an appropriate investigation to determine whether operations on the subject leaseholds for oil or gas have failed to meet the required thresholds set forth therein, including obtaining affidavits of nonpayment or nonproduction with respect to said Other Oil and Gas Lease(s). This report of title expressly assumes that there are no oil and gas leases currently held by production (including through payments of shut-in royalties) on the Subject Tract.

4. I note that June 17, 2015 at 4:00 p.m. is the last date the public records of Tyler County, West Virginia have been checked. Any instruments affecting title to the captioned property or encumbering the property, such as deeds, testamentary documents, mechanics' liens, oil and gas lease agreements, deeds of trust or other instruments filed of record in Tyler County, West Virginia subsequent to that date, or prior to the earliest date appearing on the chain of title for the respective constituent tracts of the captioned property, are not reflected in the materials examined or certified to herein, and the opinions expressed herein are expressly subject to said documents.

5. I have not completed an examination of the records of said Clerk's office to include in my certification of title the present ownership of surface of, coal within and underlying the captioned property, nor of any other estate or ownership in the land encompassing that described hereinabove other than those "Target Formations"

specifically demised in the "Oil and Gas Leasehold" section hereinabove. Should you require a certification of ownership of any other estate in the land other than that specifically demised in the "Oil and Gas Leasehold" section hereinabove, please advise.

6. The opinions expressed herein are subject to the correctness of my assumption that variations in recitals in documents of record as to the names of parties, including spelling, abbreviation, and use of middle initials, maiden names and common nicknames or informal names that are found in instruments of record relating to the captioned property are only variants thereof, consistent with common practice and reasonable beliefs of said names. In circumstances where I have reason to believe that persons with similar names are not, in fact, one in the same person, I report the same hereinbelow.

7. The opinions expressed herein are subject to the correctness of my assumption that all trustees, commissioners, guardians, sheriffs, powers of attorney and other such fiduciaries appointed with by (i) principals, or (ii) a court of competent jurisdiction, were properly appointed and subsequently acted within the scope of their appointment and power granted them, and that all documents executed and delivered by them, respectively, that transferred interest in the captioned property, as well as the proceedings underlying said transfers, were conducted in accordance with applicable law, and without procedural or substantive irregularity which would render said instruments void or voidable, thus vesting record title in the grantees and/or lessees therein.

8. The opinions expressed herein are subject to the correctness of my assumption that the information captioned "according to documents of record" appearing within the chain of title are correct and complete as to the statements made therein; where relied upon, the individual instruments forming the basis for those statements are cited within the chain of title. I recommend that, where possible, recordable copies of estate documents for the respective decedents and their heirs, or for such other information cited, be obtained and placed on record in the Office of the Clerk of the County Commission of Tyler County, West Virginia.

9. Recitals in the instrument of record in **Old Series Deed Book 4, Page 413** represent that the subject property thereof had previously been conveyed from Woods, Caldwell & Company, out of their tract of 41,000 acres, to Horace McCardle, and from the said Horace McCardle to William H. Harrison. The opinions expressed herein are subject to the correctness of my assumption that the said recitals are true and complete with respect to said conveyances, and that instruments effecting said conveyances are unrecorded, or of record in the Office of the Clerk of the County Commission of Ohio County, West Virginia. I note that Tyler County was formed out of Ohio County, by an act of the Virginia General Assembly December 8, 1814, and instruments of said conveyances may be of record in said Ohio County. I recommend you undertake an appropriate investigation to determine whether instruments effecting said conveyances are, in fact, of record in said Ohio County, West Virginia.

10. The opinions expressed herein are subject to the correctness of my assumption that Albert Eastham died, intestate, prior to June 12, 1951, with Grace Summers, Clara Harris, Geraldine Reed, Clarence Eastham, Clyde Eastham, Floyd Eastham, Russell Eastham, and Merle Eastham as his sole heirs-at-law, subject to the dower right of Mary Eastham, and that the said Mary Eastham also died prior to June 12, 1951, extinguishing her dower interest in and to the property of which the said Albert Eastham died seized. These assumptions are based upon inferences drawn from recitals in the instrument of record in **Deed Book 131, Page 519**. I recommend you undertaken an appropriate investigation to identify appropriate estate documents relating to the respective estates, and have the same placed of record in the aforesaid Clerk's Office.

11. The opinions expressed herein are subject to the correctness of my assumption that Clarence F. Eastham died, testate, November 5, 1967, and in his last will and testament, of record in **Marshall County, West Virginia, Will Book No. 29, Page 6**, devised his interest in the Subject Property to his wife, Maria C.

Eastham. I recommend you obtain a certified copy of said Last Will and Testament of Clarence F. Eastham, and have the same place of record in the aforesaid Clerk's office.

12. The opinions expressed herein are subject to the correctness of my assumption that Russell Eastham died, intestate, unmarried, and without issue (inferred from the recital that said decedent died "single"), prior to October 27, 1976, with his siblings Floyd Eastham, Clara Harris, Geraldine Reed, Marilyn Johnson, and Merle Eastham as his sole heirs-at-law. I recommend you undertake an appropriate investigation to identify estate documents, or an Affidavit of Heirship from a person with personal knowledge relating thereto, and have the same placed of record in the aforesaid Clerk's office.

13. I note that Floyd Eastham, in addition to being vested with an undivided 1/3 interest in the property conveyed in the instrument of record in **Deed Book 213, Page 425**, was vested with an undivided 1/20 interest as an heir-at-law of Russell Eastham, who died seized of an undivided 1/4 interest therein. It is my opinion that said 1/20 undivided interest was conveyed in said instrument by virtue of the use of the clause "all his right, title and interest" even considering the misstatement that said interest was only an undivided 1/3.

14. I note that the interest of Russell Eastham which descended to Merle Eastham upon his intestate death (being an undivided 1/20 interest) was subsequently conveyed by the said Merle Eastham within the instrument of record in **Deed Book 211, Page 649**, and thereafter.

15. The opinions expressed herein are subject to the correctness of my assumption that Clara Harris died, intestate, prior to April 8, 1997, with Fred W. Harris, Everett V. Harris, Onward C. Harris, Nile D. Harris, Vaughn E. Mason, Merle J. Coyne, Carolyn G. Coyne, Glenna M. Horstman, and Donna K. Tokash as her sole heirs-at-law. This assumption is based upon inferences drawn from the instruments of record in **Deed Book 319, Page 439; Deed Book 319, Page 431; Deed Book 319, Page 432; Deed Book 319, Page 435; Deed Book 319, Page 433; Deed Book 319, Page 434; Deed Book 319, Page 436; Deed Book 319, Page 437; and Deed Book 319, Page 440**. I recommend you undertake an appropriate investigation to identify estate documents, or an Affidavit of Heirship from a person with personal knowledge relating thereto, and have the same placed of record in the aforesaid Clerk's office.

16. I note that certain recorded memoranda of oil and gas leases are of record, which do not disclose the royalty rate payable to the lessors in the leases so memorialized. I recommend you obtain copies of the original oil and gas leases, and familiarize yourself with the terms thereof, prior to commencing operations on the subject property.

12. **I assume, for purposes of this Title Report**, that Albert Eastham died, intestate, prior to June 12, 1951, with Grace Summers, Clara Harris, Geraldine Reed, Clarence Eastham, Clyde Eastham, Floyd Eastham, Russell Eastham, and Merle Eastham as his sole heirs-at-law, subject to the dower right of Mary Eastham, and that the said Mary Eastham also died prior to June 12, 1951, extinguishing her dower interest in and to the property of which the said Albert Eastham died seized. **Note:** Floyd Eastham, in addition to being vested with an undivided 1/3 interest in the property conveyed in the instrument of record in **Deed Book 213, Page 425**, was vested with an undivided 1/20 interest as an heir-at-law of Russell Eastham, who died seized of an undivided 1/4 interest therein. The well operator named on page WW2A is applying for a permit from the State to do oil or gas well work. (Note: If the surface tract is owned by more than three persons, then these materials were served on you because your name appeared on the Sheriff's tax ticket on the land or because you actually occupy the surface tract. In either case, you may be the only owner who will actually receive these materials.) See Chapter 22 of the West Virginia Code. Well work permits are valid for 24 months. If you do not own any interest in the surface tract, please forward these materials to the true owner immediately if you know who it is. Also, please notify the well operator and the Office of Oil and Gas.

**NOTE: YOU ARE NOT REQUIRED TO FILE ANY COMMENT.**  
**WHERE TO FILE COMMENTS AND OBTAIN ADDITIONAL INFORMATION:**

Chief, Office of Oil and Gas

**Time Limits and methods for filing comments.** The law requires these materials to be served on or before the date the operator files his Application. You have **FIFTEEN (15) DAYS** after the filing date to file your comments. Comments must be filed in person or received in the mail by the Chief's office by the time stated above. You may call the Chief's office to be sure of the date. Check with your postmaster to ensure a adequate delivery time or to arrange special expedited handling. If you have been contacted by the well operator and you have signed a "voluntary statement of no objection" to the planned work described in these materials, then the permit may be issued at any time.

**Comments must be in writing.** Your comments must include your name, address and telephone number, the well operator's name and well number and the approximate location of the proposed well site including district and county from the application. You may add other documents, such as sketches, maps or photographs to support your comments.

The Chief has the power to deny or condition a well work permit based on comments on the following grounds:

- 1) The proposed well work will constitute a hazard to the safety of persons.
- 2) The soil erosion and sediment control plan is not adequate or effective;
- 3) Damage would occur to publicly owned lands or resources;
- 4) The proposed well work fails to protect fresh water sources or supplies;
- 5) The applicant has committed a substantial violation of a previous permit or a substantial violation of one or more of the rules promulgated under Chapter 22, and has failed to abate or seek review of the violation..."

**List of Water Testing Laboratories.** The Office maintains a list of water testing laboratories which you can hire to test your water to establish water quality prior to and after drilling. Contact the Chief to obtain a copy.

**VOLUNTARY STATEMENT OF NO OBJECTION**

I hereby state that I have read the instructions to surface owners and that I have received copies of a Notice and Application for a Well Work Permit on Form WW2-A, and attachments consisting of pages 1 through \_\_\_\_\_ including a work order on Form WW2-B, a survey plat, and a soil and erosion plan, all for proposed well work on my surface land as described therein.

**Addendum to WW-9**

**Croasmun #1**

**David Bowyer**

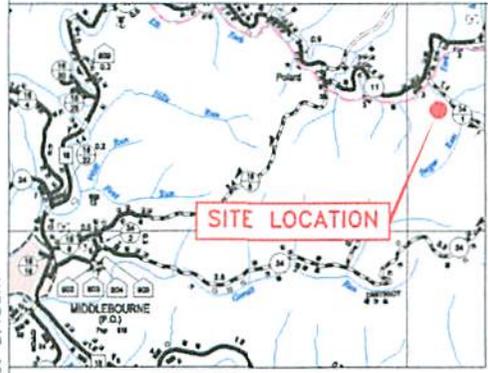

It is the intention of David Bowyer to build a pit capable of holding no more than 5,000 BBL of fresh water to be used in the fracturing of well Croasmun #1. This pit will be built separate of the drilling pit and will be used in a temporary manner. The walls will be compacted as needed to ensure a stable structure and a liner will be used in the pit. The pit will be used and filled with fresh water then used as expeditiously as possible to fracture the well. Following fracturing the well, the flowback will be completed and once the flowback has been completed, all flowback water shall be hauled from this pit to an injection facility for disposal. Once the pit has been dried out, reclamation will ensue. It is the intention of David Bowyer to use this pit as a temporary structure and not a long standing impoundment.
